DEAR CALIFORNIA COASTAL COMMISSION,

MY NAME IS AVA BIEHN I'M IN 8TH GRADE AND I'M IN 7TH & 8TH GRADE GREEN TEAM CLASS. WE LEARN ABOUT WAYS TO SAVE THE ENVIORMENT AND WE LEARN ABOUT THE CHANGES HAPPENING RAPIDLY TO NOT ONLY US BUT OUR EARTH. I'M HERE TO RECOMMEND A FEW THINGS. THE FIRST THING I RECOMMEND IS TO PRESERVING OPEN SPACE. EVERY DAY WE CUT DOWN TREES AND KILL LIVING ORGANISMS. IT MIGHT NOT LOOK LIKE WERE HURTING THE ENVIORMENT NOW BUT IN A COUPLE YEARS IT WILL SHOW. WE NEED TO HAVE OPEN SPACE TO PLANT TREES & LIVING ORGANISMS.

THE SECOND THING I RECOMMEND IS CONTROLLING STORMWATER MANAGEMENT. OUR TEACHER MR. WHITE NOTIFYS US A LOT LATELY ABOUT FLOODING AND POLLUTING OF THE WATER. IT REALLY MAKES YOU THINK ABOUT THE REALLY DRAMATIC CHANGES THAT ARE HAPPENING TO US & THE EARTH.

THE THIRD THING I RECOMMEND IS THE WHOLE IDEA ON MONITORING. MONITORING I KNOW IS A PRETTY OPEN TOPIC BUT I THINK OVERALL PEOPLE CAN MAKE IT SO IT IMPROVES IN BOTH MONITORING FLOODING CHANGES IN SEA LEVEL, EROSION RATE & VERTICAL LAND MOVEMENT. THANK YOU!

-AVA BIEHN
