

Making Sense of Water & Policy on our Coast

FREE WORKSHOP for
MIDDLE & HIGH SCHOOL
EDUCATORS

Saturday, Nov. 18, 2017
8:30am-3:15pm

USGS Western Ecological Research Center
4165 Spruance Road, San Diego

Join Project WET, the California Coastal Commission, and the U.S. Geological Survey for an exciting day engaging with the science of the shoreline and exploring the wonders of water.

- Learn how to empower students to engage with local science and policy issues through questioning, evidence-based argumentation, designing solutions, and through project-based learning.
- Practice key NGSS STEM skills including modeling of natural systems, analyzing remote sensing images, and interpreting data.

Workshop participants will receive:

1. *Project Wet Curriculum and Activity Guide 2.0* with over 90 interdisciplinary, hands-on learning activities. This award-winning guide is teacher-tested and recommended by NSTA.
2. The Coastal Commission's new *California Coastal Voices: Exploring Coastal Science, Engineering, and Policy*, a project learning guide and online toolkit. This guide is especially helpful for secondary teachers seeking to integrate Earth Science into traditional subjects.

Register by November 13 to Annie.Frankel@coastal.ca.gov or (415) 597-5888. Include the spelling of your name, email, phone number, grade(s) taught and your school or organization as applicable. Professional growth credit can be obtained through UOP's Courses4Teachers, with additional work performed.

For more information, please visit the Coastal Commission's
Public Education website at
