

## 2005 CCA Pilot Workshops

### The CCA Program

California's Critical Coastal Areas (CCA) Program is an innovative State program to foster collaboration among local stakeholders and government agencies, to better coordinate resources and focus efforts on coastal watersheds in critical need of protection from polluted runoff. The CCA Program is part of the Statewide Nonpoint Source Program, jointly administered by the State Water Resources Control Board and the California Coastal Commission. Please see the CCA webpage for more information on this program

The Coastal Commission and State & Regional Water Boards working on the Critical Coastal Areas (CCA) Program have some exciting news to share with you! We have recently produced a short list of Priority CCAs for the North Coast Region (shown on the reverse side of this flyer). We are planning workshops for March 2005 to present this priority list and get public input on the selection of Pilot CCAs. We hope that you will be able to join us at these workshops and share information about your CCA!

### Workshop includes:

- \* Update on the CCA Program
- \* Pilot CCA Discussion – "What It Means To Be A Pilot CCA"
- \* Short List and Pilot Project Selection Process
- \* Funding Opportunities
- \* Stakeholder Input on Priority CCAs

### North Coast Workshops:

#### **Monday, March 7**

2:30 to 4:30 p.m.

Humboldt Area Foundation

373 Indianola Road, Bayside (between Eureka and Arcata)

<http://www.hafoundation.org/about/facilities/>

#### **Tuesday, March 8**

2:30 to 4:30 p.m.

VFW Hall

451 School Street, Point Arena

### North Coast Region Priority CCAs

- \* Redwood National and State Parks
- \* Mad River
- \* Eel River
- \* Mattole River
- \* King Range NCR
- \* Noyo River
- \* Navarro River
- \* Garcia River
- \* Estero Americano
- \* Estero de San Antonio
