

Waves, Wetlands, and Watersheds

FREE WORKSHOP for EDUCATORS

Tuesday, October 8, 3:30-6:30pm

Shorebird Park Nature Center
160 University Avenue, Berkeley

At this workshop, you will receive a FREE copy of the California Coastal Commission's science activity guide for teachers, *Waves, Wetlands, and Watersheds*. You'll try some of the activities in the guide and get an overview of other free educational resources and programs the Coastal Commission has available. You'll get tips for teaching your students about marine debris and plastic pollution and discover opportunities for service learning. You'll learn about a wonderful resource for environmental education in your community and take part in a brief shoreline cleanup with Shorebird Park Nature Center coordinator Patty Donald.

Space is limited. **Please register before October 3** with Annie Kohut Frankel at Annie.Frankel@coastal.ca.gov, (415) 597-5888, or (800) Coast4U. Include the spelling of your name, email, phone number, grade(s) taught and your school or organization as applicable. This workshop is open to both formal and informal educators.

Professional growth credit offered through the University of the Pacific (when additional work is performed). Details available upon request.

* * *

Waves, Wetlands, and Watersheds is a classroom activity guide for teachers that addresses California's coastal and marine issues such as endangered species, marine debris, coastal geology, water use, and more. It is carefully aligned to the California State Science Content Standards for grades 3 through 8, includes Community Action lessons adaptable for all ages up to and beyond grade 12, and is correlated to Common Core. The connection between inland areas and the ocean is emphasized throughout, so the lessons are relevant for students living in all regions of California.

For more information, please visit the Coastal Commission's
Public Education website at
